YOEMEN WIN DISTRICT PENANT

ROSEBUD DEFEATED BY SCORE OF 36 TO 13

Their backs to the wall and lacking thirteen points of being in the ball game as the first quarter ended, was so much eye wash to a fighting band of Yoemen here Friday night, as they came through in grand fashion to win the conference championship by defeating Rosebud 36 to 13.

Tommy Anding and his bal hawks threw a scare into Cameron fans by scoring 2 quick touchdowns in the opening minutes of play. The passing ace of the Panthers was a constant threat, but the Yoemen blocked two of his punts and broke up the aerial circus when they finally got into the ball game.

The game victory made the Yoemen winners in District thirty-one "A" and will play Fredricksburg for the bi-district title as the Hillbillies won from Burnet Friday night, 43 to 7.

Cameron won the toss as Co-Captains Russell Wallis and T. J. O'Neill met Co-Captains Ocker and Anding in the certer of the field. The Yoemen defending the east goal received the kick off. Anding kicked to Michalka, who made a short run back. The Yoemen made a quick first down when O'Neill and Burke alternated. A pass interception lost the ball and Anding, for Rosebud, made 9, but drew a penalty for off sides —and on the next play, Anding passed to Goecke for 35 yords and a first down. Two line plays netted 4 and Sapp took a pass from Anding to put the ball on the Yoemen 5 and on the next play Anding passed to Light for a score and the Panther back kicked the extra point. Score—Rosebud, 7. Cameron 0.

Rain was falling lightly. Michalka took the kitckoff and on the first play Rosebud recovered a Cameron fumble on the 35 yard line. Cameron then recovered a Panther fumble and T. J. O'Neal goth a first down. Cameron drew a penalty. Paul Burke got two, and Michalka 9 and Paul Burke took the ball to the Rosebud 40 for a first down. Michalka's pass was intercepted, a long heave, intendended for Joe Hawkins. The ball was on the Panther 30. Anding got 9 yards and on the next play, Hollas broke through to spill a landing for a loss, and then Anding passed for 40 yards to put the ball on the Cameron 30, as Sapp took a perfect heave. On the next play, Anding found Litzman in the corner, for a long pass and the score was —Rosebud 13, Cameron 0, as the extra try failed.

Hollas took the kickoff and ran it back to the Cameron 49. The Rosebud line was fast and hard. T. J. O'Neill lost 5 yards on 2 tries, as the quarter ended.

Facing 3rd down and needing 17, Paul Burke, great full back, raced 30 yards for a first down. The ball was on the Panther 32. O'Neill lost a yard and Paul Burke got two. It was fourth and the Yoemen needed a yard. Murff was hurt and replaced by Lierman. Burke took the ball from Michalka, feinted a pass and ran the ball to the Panther 15. A pass to Hawkins failed and O'Neill got five. Burke carried to the 2 yard line for another first down. The ball lacked inches and Burke piled over the goal line and Cameron was in the ball game. He kicked the extra point and the score was Rosebud 13, Cameron 7.

Riola kicked off Sapp, who ran it back to 32 and Salach broke up Anding's pass. The Panther Ace missed Light with another pass and Russell Wallis broke up another heave. Anding then kicked to O'Neill. It was the first punt of the game. The ball was on the Cameron 25. O'Neill and Hauk picked up enough for a first down and Burke ran it to the 42. Hawkins took pass from Michalka for 10 yards and a first down and T. J. O'Neill ran the next ball to the Panther 15. Burke put the ball on the 10. It was three first downs in a row. Hawkins then took a pass for 7 yards and the ball was on the 3. T. J. O'Neill, marked for a bit of rough handling by the Panthers, got his revenge as he scored. Burke kicked the point and the Yoemen went ahead 14 to 13.

Riola kicked off out of bounds, and ball was brought back. Sapp made a good run back. Anding picked up 15 yards and then Cameron got a 15 yard penalty for roughing as the half ended.

Bob Holloway brought Anding down when it seemed he was away. The ball was on the Cameron 30 at the half.

On the second play of the third quarter, Jimmy O'Neill, all district center, broke through to spill Anding for a 10 yard loss. The Cameron line play was superb and was the victory margin. Charlie Duncan, 155 pound right guard, who has played great football all year, was a stand out.

Anding dropped back on his 5 to kick, and Joe Hawkins broke through to block it and recover for a 2-point score and the game stood 16 to 13 for Cameron. The ball was brought out and drop kicked and O'Neill ran it back 20 yards. Burke ran the ball to the 43 and then failed to gain. O'Neill got 7 in two tries and on fourth down Cameron punted with Burke lifting it over the goal line. Anding bottled up again by Hollas and Jimmy O'Neill. However, a 17 yard pass, Anding to Litzman made a first down. A pass intended for Litzman, was no good and Burke intercepted and ran the ball to the 43. Joe Hawkins was hurt. Burke crashed through center for a first down and the ball spurted in the air and was grabbed by Salach. On the next play, Burke got five and Rosebud called time out as Ocker was hurt. The terrific pace was telling on the Panthers. Michalka failed with a pass to O'Neill and on the next play, the Mighty Mite picked up 8 and was hurt. Applause swept the Cameron stands as Leo Jackson came off the field and O'Neill got back in the game. The ball lacked inches of first and Paul Burke got away for 17 yards and the ball was on the Panther 2. O'Neill got revenge and carried over and Burke added the point and the score was Cameron 23, Rosebud 13.

Riola kicked off and then left the game. Beal and Shipp came in at left tackle and left end. Beal spilled Anding and Hollas smeared Lierman. The Cameron line was stifling the Rosebud backs. Shipp and Beal slashed out to stop Anding and he had to punt. Then came Jimmy O'Neill thundering through to block the punt and the ball was on the 6 inch line and Michalka carried over. Burke missed the point, his only fizzle out of 5 trys. The score was 29 to 13.

Rosebud had to punt as Shipp and Hollas stacked their plays. Wallis carried for 3 and Hawkins failed to get a pass and Burke lost 5 on an extra try. Cameron was penalized 5. Murff intercepted a pass intended for O'Neill. Michalka intercepted Anding's pass and Burke ripped off 11 for a first down. O'Neill made another first down and Burke picked up 11 for another first down and the ball was on the 30. Hauk and O'Neill made it another first. Hauk got 2 and Burke lost 2. There was 5 minutes to play. Hauk picked up 3 and O'Neill made a first down on the 4 yard line. A pass from Michalka to Hawkins failed and O'Neill carried over. Burke laced it through and the score was Cameron 36, Rosebud 13. With 3 minutes to play, Jimmy O'Neill spilled Sapp and Shipp broke through to get Murff and Cameron drew a penalty and Rosebud got a first down. Anding put the ball on the 40 with a pass to Sapp. Rain was peppering down. Anding punted as the Panthers lacked 9 yards on fourth down. Moseley came in and Cameron was penalized 5 yards. Stedman came in for Michalka. Moseley got a yard and Hauk picked up 5. The attack bogged down as Michalka was downed by Sapp, and Burke punted dead on the Panther 1 yard line as the game ended. Final score, Cameron 36, Rosebud 13.

One of the 8 starters in the Yoemen line this year, George Hollas, 155 pound guard is a letter man from the squad of 1945.

His play had made him a standout, both on offense and defense. It was due to his great play that the Belton Tigers were so effectively stopped here on November 8 before the great home-coming crowd.

Throughout the season Hollas has been one of the strong men who has made the Cameron line the best in the district. Already it is apparent that the Cameron line is certain to place some all district men. Hollas is one of the best blockers on the squad, plays with great courage and is developing into one of the best linemen of all time with the Yoemen.

Mrs. Syd Stidham, and Mrs. Jack H. Walters and three children, of Houston, were week-end guests of Mrs. India Stidham. Mrs. Walters is her gradmother, and the three children are great grandchildren of Mrs. Stidham.

TWO SHOT IN LOCAL BAR FOLLOWING AFFRAY

Two are in local hospitals suffering from gun shot wounds as the result of a disturbance in a bar in the 200 block on West Main Street Friday night.

Silas Kirk was wounded in the body and is in Newton Memorial Hospital and will recover and the former Frances Burkeen is in the Cameron Hospital with a bullet wound in her leg. She was not seriously injured.

Wyatt Miller, bar tender, was charged with assault with intent to murder, following the shooting.

According to officers, a disturbance arose and Mr. Miller tried to stop the trouble, and to put the man and woman out. The shooting followed.

Sheriff Carl Black arrested Miller and placed him in jail. A hearing was held Saturday morning and Miller was released on bond.

Old Graduates Are Hosts to Alumni In Association Meeting

Students of the claesses of 1909, 10, 12, 13 and 14, who reside in Cameron entertained the out-of-town guests on Friday, at the Business and Professional Women's Club rooms, at the old school building. These ex-students graduated and received their diplomas here.

A social hour was followed by refreshments of sandwiches, cookies and coffee being served to the following out-of-town guests: Mrs. John Cecil Culpepper of Bryan; Mrs. H. Clay Watson of Waco; Mrs. Russell Wine of San Antonio; Mr. and Mrs. Willie Hoover, Harlingen; Mr. and Mrs. Watt Skinner of Rogers; and Mrs. Lloyd Mitchell of Houston.

Mountain Missionary On Visit to Relatives Here This Week

Mrs. Agnes Lowe has had as her guest for a few days, Rev. John R. Isaacs of Leon, Kentucky. Rev. Isaacs is a nephew of the late E. G. Lowe.

He is a graduate of Howard-Payne College at Brownwood, and is now Missionary to the mountain people in Kentucky. This is Rev. Isaac's visit to Cameron in eleven years. several of the States, including Cal-

On this trip he has visited in ifornia, where he visited in the home of Mr. and Mrs. Curtis Lowe. He will visit relatives in North Carolina before returning to his duties in Kentucky.

Mrs. Annie Reese had her children, Mr. and Mrs. Wayland Hughes, and family, of A. & M. College; Mr. and Mrs. B. F. Whites, and son, of Austin; Mr. and Mrs. W. H. Kleypas and son, of Hobbs, New Mexico, and her brother, John Nelson, of Rio Grande Valley, here to attend the home-coming of hte Cameron High School Alumni. The brother lived here many years ago and enjoyed meeting up with old time friends of years ago.

Frank Marek is home from King's Daughter's hospital in Temple, where he had an opration on one of his eyes. He is much improved and hopes to soon be able to return to his place of business.

GRAND JURY RETURNS THREE INDICTMENTS

Three indictments were returned by the Grand Jury in District court here this week, two against Dick Baggett of Milano and one against a Rockdale man, who has not been arrested.

Baggett was indicted on two counts for assault with a motor vehicle, growing out of a car crash on highway 36 west of the city, in which Mrs. Dorothy Bain was killed on October 6.

The Rockdale man was indicted for removing mortgaged property from the county.

Slaton Farmer Urges Organization Cotton Producers In Texas

Cameron Herald,
Cameron, Texas.

Gentlemen:

We note with interest in the Lubbock paper this A. M., an account of a meeting of farmers called together by the Pace Agricultural Committee, to ascertain at first hand from farmers themselves their desires on cotton legislation. In their deliberations was stressed the necessity of farm organization for the protection eof the farmer and his family.

It is gratifying indeed to see and learn that farm organization is being discussed at gatherings of this kind. It shows at least the farmers are again awakening to other great need for this protection—although not realizing that in protecting themselves and loved ones they are protecting everyone else also.

This recent meeting in your town not only proves the farmers are waking up, but shows some body up at our national capital is waking up also. Isn't that wonderful! Just a few years back, I call to mind the farm organizations that tried to secure some legislation to relieve the distressed conditions of the farmers. And the result—a deaf ear. But now —well some little difference when the Congress of the United States sends a committee around to find out from the farmers themselves what we must do to be saved. Amen! So mote it be! May the good work go on.

Mr. farmer, organize. It's a mighty good advice, even though the advice comes from Washington, who so bitterly opposed the legislation proposed by the organized farmer in the days of the Farmers Union. Yes, farmers, organize. By all means, organize. Thus save thyself and them that hear you. Organize into a close compact organization, owned and controlled by the farmers themselves, so that when a farmer in Maine mashes his finger it will cause another farmer to grunt down here in **Texas.**

Texas alone should have one hundred thousand members in a farm organization.

Organize, Educate and Protect.

—JIM CHERRY,
445 West Panhandle,
Slaton, Texas.

Heir To $50,000 Is Sought In Texas; May Have Lived Here

CHICAGO.—The former Velda Fisher, 46, who is reported to have married a man named W. C. Stevens, when she was 19 or 20 years old, is being hunted throughout Texas to claim a $50,000 estate.

This was revealed here today when Walter C. Cox, probate genealogist, 208 S. LaSalle St., Chicago, Ill. took charge of the search. Mr. Cox specializes in tracing missing relatives to settle estates.

"The Velda Fisher for whom we are looking," Mr. Cox said, "was reportedly born in about 1900 and married Stevens in Texas shortly after the first World War.

"If Velda is dead, then we want to contact her husband or any children that may survive her. There is no clue as to where in Texas she was married to Stevens, or where in the state the couple settled, or may be now living."

Bi-District Game To Get Attention Here By School Authorities

The Bi-District game with Fredericksburg is under plans here by school authorities.

A delay in the arrangements was inevitable since Fredericksburg must play another conference game Friday night with Mason.

Superintendent W. T. Hanes, Coach Leo Jackson and Line Coach Dick Young were discussing the plans early Saturday, following the capture of the conference here by the Yoemen.

The people of Cameron will be advised at the earliest moment when the details are arranged. An effort will be made to bring the game here and if that fails, a neutral site will be sought. If no agreement can be flipped and that would mean the game is to be played either at Cameron or Fredericksburg.

A dollar bill is six and one-eighth inches long.

CAMERON NEGRO IS GIVEN DEATH BY DALLAS JURY

DALLAS. The shortest major criminal trial in 20 years had ended today after a Dallas county jury last night found Oscar Allen, 44-year-old negro, guilty of a murder charge and recommended the death penalty.

The jury studied the evidence for only four minutes and returned its verdict just eight minutes after Dist. Atty. Dean Gauldin ended the state's argument.

Allen, confessed slayer of four men, was tried for the fatal shooting on Oct. 15 of Joe Enna, 63 year old Dallas liquor store operator.

Actual trial of the negro consumed less than two hours after selection of the jury.

Allen was arrested late in October along with his brother, Charlie Allen, 55, after a statewide search for the slayer of three Dallas liquor store operators and an aged Plano telegrapher.

Courthouse veterans recalled that the only trial which compared with the Allen case in brevity and speed was the trial of a negro rapist and murderer in 1925.

The trial of Charlie Allen has been set for Nov. 25.

Mrs. Clark Kelley Is Hostess to Christian Missionary Society

Mrs. Clark Kelly opened her lovely home Thursday evening to the missionary society of the Christian church and their 20 guests. The reception rooms were beautiful in a profusion of red and yellow roses.

Mrs. Dwight Hughes welcomed the guests at the door. Rita Reid held a silver tray which held little gold printed cards announcing the guest speaker and her subject for the evening. Dorothy Kelly invited the guests to register.

Bro. C. Edward Fraim, pastor of Rockdale Christian church, opened the meeting with a prayer. Mrs. Erin Slocomb gave the devotional, followed by a duet, sung by Mesdames W. G. Harsha and Roy Holt. Mrs. Witcher, president of the organization, introduced Mrs. Jay D. Howell of Waco, district secretary of the United Christian Missionary Society, who spoke on "Building for the Master", stressing that we were put here for a purpose and must make the most of the talents we have. Bro. Roy Holt closed the meeting with a prayer.

Mrs. Frank Reid invited the guests into the dining room, where Mesdames Dwight Hughes and W. G. Harsha poured coffee and tea from the lace covered table holding a beautiful floral arrangement of red roses and red candles in crystal candelabra. Mrs. Alvin Witcher assisted in serving sandwiches, cakes and candies from the buffet which was banked with red and gold autumn releaves. During the refreshment hour Dorothy Kelly gave a piano solo and Rita Reid entertained the guests with a reading. Nineteen guests registered from Rockdale.

DR. J. A. DE HARO NOW WITH NEWTON CLINIC

Dr. J. A. De Haro of Dallas, is now associated with the Newton Clinic in Cameron.

Dr. De Haro is a specialist in obstetrics and pediatrics.

He graduated from Baylor University, Dallas, in 1936 and interned at St. Anthony Hospital in Oklahoma City and from there went to the Milwaukee Childrens Hospital in Milwaukee, Wisconsin. From Milwaukee, he returned to Dallas to Bradford Childrens Hospital and after completing his work at Bradford, entered the practice of medicine for 18 months.

Dr. De Haro volunteered for army duty and spent 4 years in the Pacific Theatre of war.

Felipina Plachy and Albert Slovak are Married November 4

Miss Filipina Plachy and Albert Slovak were united in marriage, at the St. Cyril and Methodius Church, at Marak on November 4th at nine o'clock in the morning, with Rev. Ben Holub officiating.

The bride, given in marriage by her father was gowned in a white embroidered satin dress fashioned with a round neckline and a deep V-yoke which was buttoned with tiny covered buttons in the back. Embroidered satin ruffles edged the yoke. Her waistline was accented by a v-shaped peplum. The sleeves were long 33 fitted and came to a point over her wrists. Her full skirt fell in sweeping train, and wore a fringe-tipped veil attached to a halo of white embroidered satin. She carried a semi-colonial boquet of carnations showered with white satin streamers.

The bride's only assistant was her sister, Miss Marie Plachy of Austin, who was dressed in a powder blue jersey gown made with a net skirt. She carried a boquet of pink carnations.

Edwin Kovar of Fayetteville, Tex. served the groom as best man.

After the ceremony, a reception was held at the bride's parents, with only the immediate families and close friends present.

For traveling, the bride wore a gaberdine suit with brown accessories, and wore a corsage of white carnations.

Mrs. Slovak is the daughter of Mr. and Mrs. Cyril Plachy of North Elm. She is a graduate of Yoe High school, and for the past four years has been employed with State headquarters of Selective Service at Austin.

Mr. Slovak is the son of Mr. John Slovak of North Elm, where he has been engaged in farming.

OUT OF HOSPITAL

Clifton H. Lester, 19, steward's mate, first class, son of Mrs. Rosa Lee Crawford of Cameron, has been discharged from treatment at the Naval Hospital, Seattle, Wash.

Lester, who entered the Naval service Sept. 20, 1945, served at the Naval Air Station, Seattle, Wash., before his hospitalization.

Teacher Shortage Is Education Crisis

The Texas State Teachers Association has just completed a survey among city and county school superintendents to determine the condition in the public schools of Texas. Replies were received from 1,038 superintendents representing 35,874 teaching positions or about 78 percent of the total in Texas. The turnover in the teacher personnel in the public schools for this year is the greatest in our history. 9,272 teachers or more than 25 percent were new in their job when school opened this fall.

Of the teachers included in the survey, 5,730 were listed with sub-standard qualifications which represented 1 out of each 6 in the state. Superintendents reporting stated that they had in their school systems 2,157 classes with a student enrollment of 40 or more. The national standard for enrollment is 27 students in high school classes and 30 in elementary classes. This overcrowded condition has resulted from the shortage of teachers and, in many instances, a lack of adequate classrooms.

Today, Texas needs at least 9,000 qualified teachers to relieve our overcrowded classrooms, to add to the curriculum many subjects that have been eliminated during the war years, and to replace sub-standard personnel.

Superintendent Charles M. Rogers of Amarillo, retiring president of the Texas State Teachers Association commented that: "today if our public schools could employ immediately all of the students in the colleges and universities of Texas that are preparing to be teachers, we would not relieve our great shortage. I am sure that we do not have in our Texas institutions of higher learning 9,000 people today who are preparing to become teachers. We must raise salaries in Texas high enough to encourage those now in college to enter teaching as their chosen profession. I cannot see any other solution to the problem."

Three Men Steal 50 Suits And 60 Cents in Cash

CHICAGO. — Three men — one tall, one short and the third medium sized — entered a tailor shop, and told Adolph Sugar their visit was a holdup.

Each man carried an ice pick and threatened Sugar as they went ahead selecting suits—50 in all. Then they made Sugar remove his clothing and took 60 cents they found in his pockets.

Sugar told police one thief was a plump size 42, another selected size 48 long-stout suits and the third preferred suits in size 36.

U. S. Displays 100-Ton Tank To Use Against West Wall

ABERDEEN, MD. — The army's mightiest secret weapon — a super-heavy tank of nearly 100 tons—went on public view for the first time.

So heavy it runs on double tracks to keep from sinking into the ground, the T-28 was intended for the assault on the German West Wall, but was built too late to fire a hostile shot.

The tank, protected by thick armor and mounting a 105-millimeter gun, is the heaviest vehicle ever built for the ordnance department.

Japan Is Seeking Loan to Facilitate Foreign Trade

TOKYO. — The Japanese foreign trade board is seeking Diet approval for authority to borrow up to 5 billion yen (about $333,000,000) as an operational fund to facilitate foreign trade.

The fund is intended to adjust differences between international and domestic price levels, with the Japanese government entitled to any profits.

Miss Erline Angell of Freeport attended the Alumni homecoming, and visited in the home of her parents, Mr. and Mrs. Earl Angell .

Bernardine Michalka Weds Albert Lehnert At St. Monica's Here

The marriage of Miss Bernardine Michalka to Albert F. Lehnert was solemnized at St. Monica's Church, at eight o'clock in the morning, Saturday, November 9. Rev. George Duda read the double ring ceremony and nuptial mass.

The bride wore an acqua suit with gray and black accessories, and a shoulder corsage of white gladioli. For something old, she wore a strand of pearls belonging to her mother.

Miss Rosalie Lehnert, sister of the groom, was the bride's only attendant. She was dressed in a brown suit, with brown accessories, and wore a corsage of pink gladioli.

Mrs. Frank Hanel provided the wedding music.

Following the ceremony, a mid-day luncheon was held at the home of the bride's parents for the immediate families.

Mrs. Lehnert is the daughter of Mr. and Mrs. Anton Michalka of Cameron.

The couple left immediately for a wedding trip to Houstonn.

Mr. and Mrs. W. T. Caldwell of Waco stopped in Cameron for a short visit with friends last Friday on their way to Galveston, where they visited with their son, Douglas Caldwell and family. They brought the news that Mr. and Mrs. Douglas Caldwell are the parents of a 9 and one-half pound doughter, born in a Galveston hospital on Thursday.

Mr. and Mrs. G. C. McCollum and daughter, Lerline of La Port spent the week end in the home of Mr. and Mrs. Judd Davis, and attended the Homecoming.

LET'S HAVE A *Heart-to-Heart* TALK ABOUT THIS

You believe in life insurance. That's why you are a policyowner. And you believe in your family, too. You want that little girl to grow up in the neighborhood where you've built your home. You want your wife to have that home as long as she wishes to keep it. And if anything *should* happen to you, you want her to be able to bring your little girl up under the teaching and guidance that only a mother could give her. You *don't* want your wife to have to leave your child in some day nursery all day long while she works—or looks for work.

That's why you bought your life insurance, isn't it—to take care of them.

Well, let's look at your life insurance. Will it do the things you want it to do? If you have $2,500 of life insurance, it will provide your beneficiary with $50 a month for about four and a half years. Is that enough? Will that assure them of that home—give them food and clothing, and the necessities of life you'd want them to have if you were not here to provide them? Is that enough to give that little girl the start in life you want *your* daughter to have?

Let's have a heart-to-heart talk about your life insurance today. Helping you to outline a plan of protection to do the real job you *want* life insurance to do for you is a part of our service, and a request for detailed information will not obligate you.

Beauty and Brawn

...the perfect team!

Here, there and everywhere, Hudson style and stamina are making new conquests—taking thousands of hearts by storm.

This preference for the new Hudson is phenomenal, even in a year when car demand is far above normal. You ought to know the reasons for it.

Women's hearts—men's, too—have been captured by the smartness of new exterior styling, and the luxury of new interiors upholstered in a leather-fabric combination found in only *one* other 1946 car (one of the highest priced).

Present Hudson owners—and thousands of "habit buyers" of other makes as well—also know what a mountain of evidence Hudson piled up during the war years for smooth performance, reliability, endurance and economy.

There's another reason . . . the splendid Protective Service offered by 3,000 authorized Hudson dealers from coast to coast—with expert mechanics, modern equipment and genuine Hudson parts.

We are here to serve you—promptly, courteously, at moderate cost. Visit us today. You will find this Hudson organization, too, is "the perfect team" —backing fine cars with expert service, for your satisfaction.

HUDSON

Cars that Bring New Meaning to a Fine Old Name

Choice of famous 102-horsepower Super-Six and 128-horsepower Super-Eight engines . . . Offered in a Super Series and distinguished Commodore Series—Sedans, Brougham (Super Series only), 3- and 5-passenger Coupes and Convertible Broughams in nine new standard body colors, with four 2-tone combinations at extra cost.

Many Convicts Are Redeemed by Army

Now Live as Respected Members Of Their Communities.

ALBANY, N. Y.—A large number of ex-parolees in New York state now are living as respected members of their communities as a result of war service with the armed forces.

Commissioner Frederick A. Moran, chairman of the state parole board, reports that of all the parolees who served with the armed forces, an "amazingly low number" had bad records in service.

"The parolees almost to a man," Moran reported, "found a new life in the army and took advantage of it to restore themselves to a respected position in their communities."

One parolee, a medical aid man, was wounded three times and was awarded the Purple Heart with two oak leaf clusters, a presidential unit citation and a French decoration for bravery in evacuating wounded comrades during a fierce engagement in Germany.

Several received spot battlefield commissions and one was awarded the Bronze Star medal for "utter disregard for personal safety" in assisting wounded to reach our lines.

One parolee, Moran reported, volunteered to lead a Filipino party bringing food and water to a lost American company. The group was ambushed and two men were killed and three others wounded. It required two days for the detail to deliver the supplies and when they returned they brought their wounded with them.

Whenever possible the parole board has released men from parole after they were honorably discharged from the armed services and has assisted them in their search for a new start in civilian life, Moran said.

He enjoys recalling the act of a parolee who learned in prison that orders are orders. While on sentry duty, the parolee, under orders not to allow anyone to enter a certain plane, refused entrance to an officer—who turned out to be the senior pilot. The sentry was commended for his attention to duty.

Buy Embassy in Rome With Surplus Property

ROME. — One of the most beautiful buildings of Rome, the Margherita palace, has been bought by the United States government to house the U. S. embassy offices in Rome.

Sale price of the palace was set at $1,250,000 worth of surplus American property, which already has been transferred to the Italian government.

Palazzo Margherita was erected about 1878 by the Roman architect Gaetano Kock for the Princess Boncompagni and Ludovisi of Piombino. It became the residence of Queen Mother Margherita, widow of Umberto I and mother of Victor Emmanuel III in 1900.

It was first utilized by the United States embassy, July 14, 1944, a month after Rome fell to the Allies.

Plenty of Fish, Housewives Told by Wild Life Bureau

WASHINGTON.—This may offer some comfort to American housewives who can't find meat:

The fish and wild life service predicted that there would be plenty of fresh and frozen fish for the rest of the year.

It said the supply of frozen fish and shellfish totaled 152 million pounds on September 1, a record for this time of the season. Stocks included 130 million pounds of salt water fish, 9 million pounds of lake and river fish and 13 million pounds of shellfish.

There were no figures for fresh fish, but a spokesman said the average daily catch was ample.

Sales of Government Bonds Now Total $5,878,784,000

WASHINGTON. — Sales of federal government savings bonds during 1946 reached a total of $5,878,784,000 at the start of last month, treasury figures showed.

September sales of the three series now offered, the E (war bond), F and G issues totaled $494,111,000, with E bonds accounting for $307,846,000 of that total.

Total redemptions of the three issues were $455,385,000 or $38,726,000 less than sales, but for the E bond alone, redemptions were $406,136,000, or $98,290,000 in excess of sales.

The treasury plans an intensified bond sales campaign for the period of November 11 to December 7—Armistice Day to Pearl Harbor Day.

French Decorate Five U. S. Officers in Berlin Rites

BERLIN.—Five American officers were decorated by Gen. Pierre Koenig, French commander in Germany, at French headquarters. The officers are Col. B. L. Milburn, Fayetteville, Ark.; Lt. Col. R. F. Alexander, Terre Haute, Ind.; Lt. Col. Wilbur Wilson, Norman, Okla.; Capt. Rhett H. Nowell, Orlanda, Fla., and Chief Warrant Officer Raymond H. Gooch, American Lake, Wash.

Navy Device Opens Way to Sea Airports

New Plane Launching Machine Works on Rooftops.

PATUXENT RIVER, MD. — A new airplane-launching device that its sponsors hope may make possible the construction of airports on rooftops and in mid-ocean has been unveiled by the navy.

The device, called "Zebra," is a catapult that launches pilotless missiles, such as buzz bombs, and aircraft after a short take-off.

Navy and other engineers said it is potentially capable of launching huge airliners from small, rooftop fields in mid-city, and large bombers from tiny ocean bases.

The new device later may be adapted to landings as well as launchings, engineers said. This is necessary if it is to be used on rooftop fields.

The new launcher is a small electric car that travels at speeds up to 220 miles an hour on a track.

The craft intended for launching is attached to Zebra by a cable.

Starting with a gentle pull, Zebra towed navy single-engine craft for about 200 feet and then launched them at speeds of about 100 miles an hour.

The planes were launched when Zebra stopped and slipped the tow cable from the plane. Zebra is controlled by an operator under the landing strip.

Without takeoff assistance the planes used today would have required about 2,000 feet of runway.

The navy has launched planes as heavy as the B-25, weighing about 30,000 pounds, with Zebra. M. F. Jones, project engineer, said it can be made to launch airliners or bombers up to sizes of a "Flying Wing" that weighs 200,000 pounds.

"It would take a longer runway and larger motor," Jones said.

Worn out paper money is sent by the banks to the Treasury Department, where it is macerated. Banks receive new bills to replace the ones sent in.

Damaged U. S. currency is worth only half its face value if only two-fifths and no more than three-fifths remains.

Jefferson's portrait appears on the two-dollar bill.

RURAL and FARM CUSTOMERS SERVED BY TEXAS POWER & LIGHT CO.
Rural ELECTRIC LINES

We Have Set the Pace in Rural Electric Service for 30 Years

STEADY INCREASE YEAR AFTER YEAR

Constant addition of rural electric lines is no new activity with the Texas Power & Light Company, pioneer of rural electrification service in Texas. 'Way back in 1915, this company began extending its lines to farms and outlying communities. By 1921, we had brought electricity to 6,926 farm and rural families. This number has almost doubled every ten years, as we consistently added more and more lines to serve more and more farm families each year. Today, approximately 7,000 miles of the Company's rural lines alone—serve more than 68,000 farm and rural homes.

Extending electric service to rural areas at first presented many difficulties, among which was the high cost of equipment to make service available to outlying areas. This company's engineers, after years of experience in rural line construction, in 1930 worked out design details and completed construction on the first ridge-pin, common-neutral type of cross-country line, using smaller poles and 300-foot spans of wire. This development and the cooperation of the company's engineers with manufacturers in developing smaller transformers and new type conductors permitting up to 600-foot spans, contributed to more wire-spread rural electrification through lower cost rural construction.

Thanks to the Texas Power & Light Company, rural electrification has steadily increased for 30 years in North, Central and East Texas.

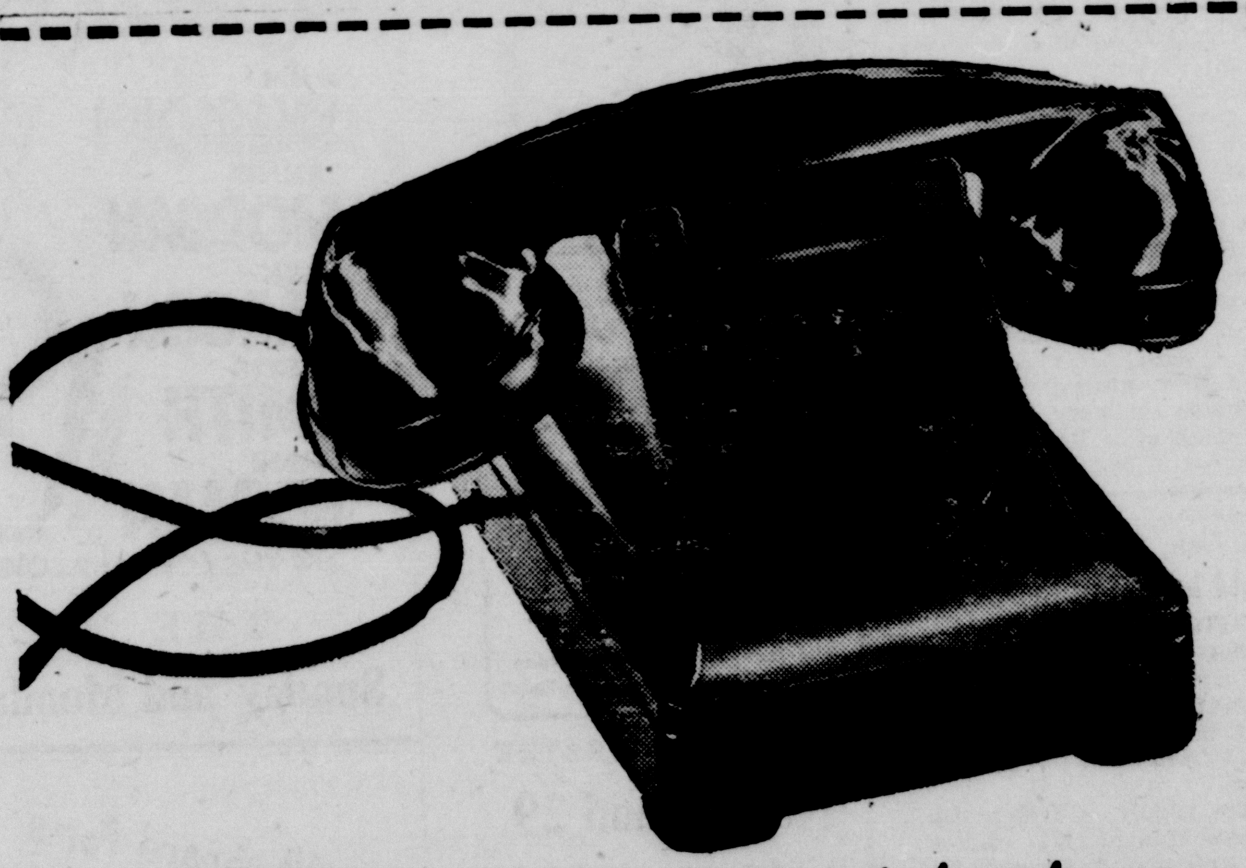
You can still operate a room heater for 45 minutes with a penny's worth of Lone Star Gas Service.*

*Lone Star Gas Service costs less today than before the war. It is one of few costs of living which has been reduced since 1941.

Lone Star Gas Company



Progress on getting telephones to those waiting

Every day we're making progress on the big telephone job to bring service to the people who want it. New applicants keep the waiting list long, but as new equipment is placed in operation, we're able to put in telephones for those who have waited longest.

It's not a short or easy job, but we're hard at it. We are working at getting telephones for not a few persons or a few towns, but . . . for more than 230,000 persons . . . living in some 700 towns . . . in five states. . . .

"Getting telephones" means making and shipping and installing switchboards and other telephone equipment, stringing wire and splicing cable, setting poles and placing conduit, and all the rest that adds up to a telephone system.

All over the United States people are waiting for telephones. Thus we get only our fair share of the new telephone equipment being made for all of the 48 states. Raw materials the factories work with—copper, lead, rubber, cotton—are just as scarce as many of the hard-to-get things you yourself need these days. That's why getting telephones in takes longer today than we like.

That isn't normal, and it won't last. One of these days we'll be putting in telephones again the day people want them installed. Everyone who wants a telephone will have one, and service will be better than ever.

Meanwhile, the best way we know to hurry that day along is to work hard—harder than we once believed we could work—and make that badly needed telephone equipment faster than it has ever been made before. As you read this, 100,000 workers in telephone factories—an all-time high—are doing that. They are making telephone equipment in far greater volume than ever before. That's the best answer to a shortage that we know.

From where I sit ... *by* Joe Marsh

Why Bert Won First Prize

Folks weren't surprised when Bert Childers won first prize for his corn at the county fair.

Yet the judges admit it wasn't just because Bert had the finest ears of corn. He knew how to *display* them: neatly arranged, with the husks cleanly trimmed, and the booth white and spotless.

"Trimmings" sure make a difference no matter what you're offering—as Andy Botkin, keeper of the Garden Tavern, well knows. Andy doesn't just sell good beer. He sells it in a place that's clean and attractive ... in nice surroundings that belong with the enjoyment of a wholesome beverage of moderation.

And Andy, of course, is a wholehearted supporter of "Self Regulation." That's the system by which the Brewers and tavern keepers themselves make sure that taverns selling beer are clean and orderly.

From where I sit, people like Andy also rate a "First prize." Not just for the quality of the product—but for the "trimmings" too.

Joe Marsh

Town Repaying Its War Heroes

Veterans Get a Lot for $1, House at Half Price and Jobs for the Idle.

FRANKLIN, N. H.—Folks in this town are taking care of the veterans of both World Wars. The town is successfully combating inflation and is beating the housing shortage.

It's issuing a challenge to a troubled nation to step out and give the ex-G.I.s things they dreamed of when they were fighting.

It costs $1 for a veteran to buy a lot on which to build his dream home.

The lot is 15,000 square feet of land, a third of an acre. It's in a forest of virgin pine. Three minutes' walk distant is sparkling Webster lake, with two sandy bathing beaches and ample space to fish, swim and sail undisturbed.

If you're one of war's serious casualties that might be all it would cost you—$1. In due time you'll get a house of six or seven rooms.

How They Do It.

Take the case of Robert Morrison of Franklin, who lost his legs in the Battle of the Bulge.

Bob came home to live with his parents, but it was crowded and unsatisfactory because he has a wife and child.

Bob was one of the first to pay in $1 for a lot. Then the people of Franklin Park got together and are building him a home.

If you're physically sound you'll get the same kind of house with all the modern gadgets. It will be attractively styled by a competent architect.

It will cost you from $2,000 to $5,000 complete, depending on what kind of house you want. But that's less than half what you'd pay elsewhere.

Back of the scheme is Mayor Henry J. Proulx and backing him are the 6,576 citizens in this typical small New England industrial city.

World War II was in full swing when Mayor Proulx came up with the Franklin formula. He pointed out that 1,067 of the city's sons were in the service—15 per cent of the total population.

Housing would be the big problem, said this World War I veteran. Lots of people laughed at his scary talk.

But ex-doughboy Proulx knew he was right. Proulx personally got a loan from a Boston bank and founded the Daniel park development—a tentative housing project on 35 acres of primitive land.

Veterans Jump at It.

Architects made blueprints of the development, set out tentative streets and provided for a playground.

At the first meeting 200 veterans appeared. There were only 60 lots available, so they drew to determine which 60 could buy the $1 lots.

"Once the first homes were started we were besieged by other veterans urging that more homes be made available," Proulx said. "So we have alloted hundreds of additional acres. We will continue to do so until the demand is satisfied."

Veterans were hired by the city to cut the pines from the land used in the development. A sawmill was set up to saw the trees into lumber. Veterans operated it.

G.I.s set to work building roads, laying water and sewer pipes. Cellars are dug at cost. Lumber bought from the city sells for half the normal price.

Contractors obtain building materials at cost and resell them to the veterans at cost. Some veterans have teamed together to help each other build their homes.

Special machine shops and wood-sawing plants have been set up by the city to help prepare scarce materials. Thus there's little waiting to hold up construction. It takes about 10 weeks to complete a house.

Gets $10,000 Worth of Home For Just One Dollar Bill

BUFFALO.—For $1 Anthony Carnevale bought two houses assessed at about $10,000.

And the previous owner, a bottling concern, is satisfied that it was "a good deal."

An officer of the firm explained: "We bought the two houses adjoining our bottling plant several years ago, intending to raze them and add on to our plant.

"However, because of material shortages, we decided to wait.

"Carnevale operated a grocery store on the corner but his building was in poor shape. He came to us and offered to buy the two houses. We sold them to him for 50 cents each.

"It was a good deal for both of us. We save the cost of demolition and he gets two good houses."

Great Britain and Russia Are Trading German Goods

HAMBURG, GERMANY. — The British zone is sending iron and steel to Russia's occupation zone in return for grain, fuel and other products.

British officials, announcing this, said use of the Russian-zone fuel in Berlin would save transport required to bring in Ruhr coal.

The British said American occupation authorities were informed of the development.

New Minister Reports For Pulpit Duty With Methodists In Cameron

Rev. A. E. Rider has arrived in Cameron to take up his duties as pastor at First Methodist church.

Rev. K. R. Isbell, who has been here, was assigned to duty with the church in Gainesville and has left for that city.

Rev. Rider was with the Methodist church in Nacogdoches before his assignment here by the conference.

Mr. and Mrs. Ervin Kleiber of Schulenburg spent the week end with her parents, Mr. and Mrs. A. L. Jistel and family.

It is said that the finest and most deilcate use that we make of our muscles is in speaking.

Mrs. Joe C. Brassmann and son, Gene, of Schulenberg, spent the week end with her sister, Mrs. A. L. Jistel.

Mrs. Conrad Jekel of Buckholts was a welcome visitor in Cameron on Thursday.

Emile Coue was the father of auto-suggestion.

TUESDAY NOVEMBER 26

Do You Want Better Health?

If you aren't feeling up to par, if you are really ill, if you have searched everywhere for relif without success . . . let science help you out.

Here's a brand new, scientific, almost magic radionic discovery that aids in finding the cause responsible for your trouble. You will know what your trouble is and how to correct it. Your blood pressure will be taken. Your heart and lungs will be examined. There is no pain, no surgery. You will be checked for dietary deficiencies and told what they are. You get a REAL physical examination scientifically—with the Hemovitameter.

Dr. M. Y. Lewis, expert technician with the Hemovitameter Co., Denver, Colorado, will be here for this special scientific clinic.

MRS. STIDHAM—ROOMS
SECOND DOOR, NORTH OF POST OFFICE
Cameron, Texas

MEET Mr. A-C

WHO IS HE?

As a business succeeds and grows, it requires a more complex system of management and, often, more widespread ownership.

Allis-Chalmers has grown and progressed for 99 years. Just who is Mr. A-C? Because the answer to a question like that is complex, it is easy for people to pick up mistaken impressions.

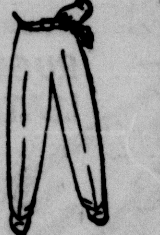
For the sake of the record, let's take Mr. A-C apart and see who he really is.

WHO IS CAPITAL?

Capital doesn't wear a silk hat at Allis-Chalmers. "Capital" consists of 23,100 stockholders who own an average of less than 110 shares each. Mr. Capital might be a grocer, a farmer, a widow, a school teacher, or YOU. He might be a company employee in the office or shop or an officer of the company.

No one individual or family owns more than ½ of 1 percent of the total stock of Allis-Chalmers.

This is an example of democratic ownership distinctive in the history of large corporations.



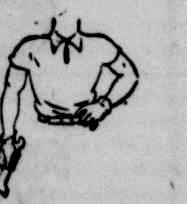
WHO IS MANAGEMENT?

Management is the guiding hand (or head) hired by the owners to make an organization tick — and click!

Who is Mr. Management at Allis-Chalmers? Not just the officers and division heads of the company. Management is the block manager in the territory, the foreman in the shop.

Management is every employee from errand boy to president who contributes by word and deed to the progress of the company.

Mr. Management doesn't wear a high wing collar at Allis-Chalmers. Neither does he have any monopoly on his job.



WHO IS LABOR?

The man who works in the shop is spoken of in the newspaper as "labor."

Actually he may be a part of *Management* by reason of some suggestion he has made to improve a process or a product.

Actually he may be a part of *Capital* through ownership of company stock.

The fact that he works with his hands makes him no less a part of Allis-Chalmers than the man or woman who works at a desk. The terms "Capital," "Management," and "Labor" are indefinite and overlapping. Many a man who works in the shop is actually a part of all three groups.

Introducing Mr. A-C

Who then is Mr. A-C? He is a combination of 23,100 stockholders, 25,000 employees, and more than 10,000 suppliers.

He symbolizes a company in which no individual or family owns more than ½ of 1 percent of total stock.

His is a company which contributes something to better living in nearly every home in America — in supplying machines to grow and process food, generate electricity, pump water, build roads, produce building materials.

Quite somebody, Mr. A-C! It takes the right hand, left hand, head, heart and pocketbook to achieve such results. No one part of him can do the job alone.

Try War Gases In Cancer Cases

Army Joins Research Groups To Study Use of Nitrogen Blister Chemicals.

EDGEWOOD ARSENAL, MD.—The army chemical corps' medical division will investigate the possibility that deadly blister gases prepared for wartime use may aid victims of cancer, it was announced here.

The gases will be part of a large variety of chemicals to be used in a search for new compounds for cancer treatment. The work will be conducted in close collaboration with leading cancer research groups.

After the fall of France in 1940, information about new blister gases known to the French and Germans reached this country. These gases were classified as "nitrogen mustards" because they blistered the skin like mustard gas but contained nitrogen instead of sulphur.

Hit Whole Body.

Study by the chemical corps and agencies of the office of scientific research and development disclosed that the gases were poisonous to nearly all parts of the body but particularly destructive to bone marrow and lymph glands.

Most white and red blood cells are formed in the bone marrow. Other white blood cells and lymphocytes originate in the lymph glands.

Use of the nitrogen mustards was suggested to treat diseases in which there is a great over-production of white blood cells—the leukemias, or a great overgrowth of lymph glands, Hodgkin's disease and lymphosarcoma, fatal forms of cancer.

Because the nitrogen mustards were extremely toxic, they had to be tested carefully before being administered to human patients. The first trials, made at New Haven, Conn., by Dr. Louis Goodman and Dr. Alfred Z. Gilman, led to further experiments.

They Prolong Life.

Results of the use of the gases in the first 67 cases treated, recently published in the Journal of the American Medical association, showed that while the nitrogen mustards do not cure any form of cancer, they do prolong life in many instances and bring about remarkable remissions in a few cases.

The chemicals were mot effective in treating Hodgkin's disease, where results equaled those obtained with the best x-ray treatment. They gave temporary relief to some cases which no longer responded to x-ray.

Reports are awaited on other cases similarly treated at Memorial hospital in New York, Walter Reed General hospital in Washington and Chicago hospitals.

Only three types of nitrogen mustards have been used in cancer treatment. More than 60 others have been made in the chemical laboratory and it is among them that the medical division will search for better cancer drugs.

Washington First In Crazy People, Statistics Prove

WASHINGTON.—There are more crazy people in Washington, D. C., than there are any place else in the United States, a table printed in the Illinois Public Welfare Bulletin showed. The survey covered only persons confined in public hospitals for the mentally ill.

The District of Columbia has 816.30 persons for each 100,000 of population confined in public mental hospitals, the table disclosed. New York state had 602.83 for each 100,000 to rank second high in percentage of insane to population. Illinois was far down the list of states with only 407.71 mental patients confined for each 100,000 population.

Several eastern seaboard states outranked Illinois in percentage of insanity, including Connecticut, Delaware, Massachusetts, and New Hampshire. Lowest in the nation was Wisconsin with 66.07 persons for each 100,000 residents. The table was based on United States census figures for 1943, the latest statistics available.

Golden Eagle Is 'Put On Trial' In Scotland

PERTH, SCOTLAND.—A golden eagle is "on trial" for his life. The judicial body, composed of the Perthshire agricultural executive committee, charges the defendant carried off 40 lambs.

Committee members refused to announce their verdict, but an official said the case would be submitted to the Scottish board of agriculture.

Permission to kill a golden eagle must be obtained from the board under British law.

Yield of Cotton Is Placed At Lowest Point Since 1921

WASHINGTON. — A 1946 cotton crop of only 8,724,000 bales—smallest since 1921 and second smallest since 1896—was forecast by the department of agriculture. The estimate is 477,000 bales, or 4.9 per cent below the September 1 forecast. Production last year was 9,015,000 and the 1935-'44 average was 12,553,000 bales.

Unfavorable weather was largely responsible for the decline.

BOYCE HOUSE
"Gives You Texas"

Back in the days when, outside the South, the country was almost solidly Republican (in the Coolidge era), Amon Carter was riding on the train with his friend, Will Rogers. The cowboy philosopher met another passenger, who had recently made the race for Governor of a Mid-Western state as the Democratic nominee. That day, Will wrote in his column, "On the train today, had the pleasure of meeting the man who ran for governor of Iowa on the Democratic ticket. Also on the train were the two men who voted for him."

J. M. North, Jr., editor of the Fort Worth Star-Telegram, speaking of the enthusiasm of anyone who has made up his mind to run for office, said, "If one man asks you to run, you have been solicited; if two ask you, there is a great public demand; and if three ask you, you have been drafted."

He told of an early-day citizen of Fort Worth who ran a boarding-house. This citizen decided to run for mayor and received 11 votes. The ex-candidate put a notice in the paperper that if those who voted for him would come by, he would be glad to have them as his guests for Sunday dinner. So many came that it took three hours to feed them all!

Texas sights: A squirrel frisking over a red roof in Austin.

South of Tyler, a village cemetery which, in the Spring, is a field of Bluebonnets.

Personally, I like words like "tol'able" and "sorter" and stomp", whether they're in the dictionery or not.

Mr. and Mrs. R. L. Bielefeldt and daughter, of Temple, and S-Sgt. and Mrs. Jack Reavis and son, of Randolph Field attended the Homecoming the past week end and visited in the home of Mrs. Reavis and Mrs. Bielefeldt's parents, Mr. and Mrs. J. L. Slaughter.

There is a slight difference in the length of every person's legs.

Special Venire Ordered For Andrews Case In District Court

Judge John Watson has ordered a special venire of 125 men for Monday, November 18 in District Court in the case of George Andrews, charged by indictment with murder in connection with the slaying of Ernest Andres in Rockdale on October 5.

Newton Andrews, son of George Andrews, is charged with assault with intent to murder in the same killing. The men engaged in a street fight and Newton Andres was slashed with a knife.

Tilling with a Hundred Teams of Steel

More power on the farm means more food : : : more jobs.

If a farmer had three teams of horses twenty-five years ago he was well equipped. Now, with over two million tractors and thousands of other power producers, most farmers command the equivalent of : : : a HUNDRED TEAMS.

Wise use of their power, which can be packed into a few tons of steel, is enabling U.S. farmers to keep abreast of unprecedented food requirements. It is one of the secrets of national progress.

Steel horsepower does more than produce bigger crops with less labor. It has released, for production of human food, millions of acres once needed to feed horses and mules, and has created thousands of new jobs for town and city people who process and sell the increased harvests.

The benefits of farming with steel are the result of teamwork between farmers and industry. The farmer knows what he needs; industry knows how to supply it at a price he can afford. This teamwork must continue if America is to remain a land of abundance.

Farmers need still more power. The country needs still more food. Uninterrupted industrial production will permit industry to catch up with the pent-up need for more farm power.

Mrs. Ira F. Key Is Very Ill

News has come to Cameron of the serious illness of Mrs. Ira F. Key, of Amarillo, who has been visiting relatives in Dallas, and was taken back to her home, and had since undergone an operation. Her son, Dr. Juliens Key, is with her and the report is that she is doing nicely. She is the widow of the late Rev. Ira F. Key, pastor of first Methodist church here for four years.

Mrs. Georgia Lott Foster, of Houston, is visiting Miss Aetna Smith for a few days. Mrs. Foster for many years made her home here, is the daughter of the late Dr. Lott, who lived here many years.

William R. Rogers has had as guests in his home the past week his children, Mrs. Eloise Ronshauson and daughter, Marlyan of Port Arthur; Mr. and Mrs. Kenneth Rogers, of Lufkin, and attended the Home-Coming of the Cameron High School Alumni Friday and Friday night. Mrs. Ella Dobbins of Waco, and her daughter, Mrs. W. A. Gilbert and small son William, Jr. Ottors, Canada, and Reed Rogers, of Temple, Mr. and Mrs. Raleigh Hooks of Houston.
